Promoting a New Conservation Ethic Based on Respect for Indigenous Peoples

IUCN WCC, Jeju, South Korea 2012:
Vicky Tauli-Corpuz, Exec. Director, Tebtebba, former Chair, UNPFII
OUTLINE

• State of conservation in the Philippines
• Challenge of establishing new conservation ethics
• Recommendations
Working for the recognition, protection and fulfillment of indigenous peoples' rights.
Working for the recognition, protection and fulfillment of indigenous peoples' rights

Key Biodiversity Areas
Working for the recognition, protection and fulfillment of indigenous peoples' rights to Protected Areas, National Parks, Forest Reserves and others.
Working for the recognition, protection and fulfillment of indigenous peoples' rights.

Ancestral Domains
Forest
-Large forest areas are outside the protected areas system
-Ancestral domains feature extensive forest areas
Key Biodiversity Areas
-Support protected areas and ancestral domains
DiVERSE LAND USES IN TINOC, IFUGAO

APPLYING ECOSYSTEMS APPROACH

Land Use Pattern

• Bel-ew, Dowengan, Lingenan, Along ni hebheb, pehyew
• Kiyewan, Muyung
• Inum-an, Kinabba
• Pastulan
• Pan-abungan, kubo
• Wangwang (ipon)
• Payew, lidah, waklitan
• DiVERSE LAND USES IN TINOC, IFUGAO
Working for the recognition, protection and fulfillment of indigenous peoples’ rights.
Conservation ethics should be based on the following:

• Respect for the rights of Indigenous Peoples embedded in the UN Declaration on the Rights of Indigenous Peoples

• Respect for Indigenous knowledge systems

• Ensuring full and effective participation in design, implementation, M and E
